MARYSVLLLE:

SATURDAY, DECEMBER 13, 1845.

A NEW STATE.—The people of Wisconsin are talking of organizing into a State, and asking admission into the Union at this session. The people seem to be almost unanimous in favor of the formation of a State Govenrment, but are a great deal divided as to the best method of arriving at the end proposed. An effort, however, will be made to bring Wisconsin in simultaneously with Texas. [St. Louis Republican.

The Constitution of Missouri provides that none but native-born citizens of the United States are eligible to the office of Governor. Convention now in session at Jefferson city to amend it have adopted a proposition, by a vote of fifty to fifteen, that the Governor shall hereafter be thirty years of age, shall have been a the mint to New York; the graduation citizen of the United States ten years, of the price of public lands is proposand a citizen of Missouri for five years.

Accounts from Upper California to the 15th of October last have been received by editors of the New York Sun. A British fleet, destined for Oregon, is reported to have passed up the West Coast early in October .-The pioneer ship of the fleet, called the "America," touched at Montery.

English Railways .- The London Times has published a document relative to the railway interest of England, which has excited much interest and exhibits the astounding number of 1,-263 projected companies, to carry out which will require nearly two thirds of the national debt of England! Even out the Union, discriminating neither the deposite of ten per cent. will alone for nor against any class or section. absorb £53,136,300. It further apabsorb £53,136,300. It further appears that there are 47 railways coming 30th June, 1847, are estimated at pleted, representing a capital of £70,-680,887. In the course of construction there are 118 lines of railway, to are estimated at \$25,578,813, complete which, even with the Parliaon debenture, will absorb £67,359,-325; so that the invested capital in railways, leaving entirely out of view the new announcements, is already the enormous sum £113,612,018! But if the old, the new, and the announced undertakings are added together, with the ten per cent. deposite, we have the incredible sum of £649,583,790 reknavery, and madness before.

From the Sat. Emporium. TO A BEREAVED MOTHER.*

BY W. F. J. THIERS.

Weep not, bereaved mother, Though thy affliction's great-Though thy loveliest and fairest buds Are nip'd by storms of fate. Those four fair buds of promise Are blasted one by one--But "let God's will be done."

E'en as the beauteous foam bell That rests upon the wave. Their gentle spirits fled away, Their forms sank to the grave. The bitter cup hath passed away, And left life's path untrod: Weep not, bereaved mother, Their spirits dwell with God.

Tis hard to have our dearest ties Torn one by one away-Tis hard to see life's fairest forms The victems of decay; But bliss it is to know they're gone, To one eternal home -Weep not, bereaveh mother, 'Twas God who bade them come.

The voyage of life forever passed, They've reached a port of peace. Where care and sorrow are unknown; Where troubles ever cease. Dove-like their spirits fled away, Nor sins to be forgiven: Weep not, bereaved mother.

Thou shalt meet them all in Heaven! *The above was written to a lady.

A person pointed out a man who had a profusion of rings on his fingers, to a cooper. "Ah, master" said the artizan, "it is a sure sign of weakness when so many hoops are used."

It is one of the most common errors of mankind to think that the possession of something which they cannot attain, would greatly increase their happiness.
